EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Craig Plastrik on 09/27/2010.

The application has been amended as follows:

54. (Currently Amended) A method comprising:
establishing a set of user content delivery preferences relating to user content, wherein the set of user content delivery preferences comprises a delivery cost constraint for delivery of the user content to a terminal;
receiving a request for the delivery of the user content to the terminal;
maintaining a log of session activities that have occurred with respect to the terminal; and
wherein selecting one of a plurality of available networks over which to deliver are available for delivery of said user content, and none of the plurality of available networks would satisfy the delivery cost constraint, and

wherein at least one other network becomes available, selecting the other network for delivery of the user content based on at least a cost for delivery of the user content in view of the cost constraint.

72. (Currently Amended) An apparatus comprising:
at least one memory storing a computer program; and
at least one controller;
the at least one memory and the computer program, with the at least one controller configured to cause the apparatus to perform at least the following operations,
establishing a set of user content delivery preferences relating to user content, wherein the set of user content delivery preferences comprises a delivery cost constraint for delivery of the user content to a terminal;
receiving a request for the delivery of the user content to the terminal;
maintaining a log of session activities that have occurred with respect to the terminal; and

~~wherein selecting one of a plurality of available networks over which to deliver are available for delivery of~~ said user content, and none of the plurality of available networks would satisfy the delivery cost constraint, and

wherein at least one other network becomes available, selecting the other network for delivery of the user content based on at least a cost for delivery of the user content in view of the cost constraint.

Please cancel claim 89

Please cancel claim 90

2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is the inclusion of the following limitations in each independent claim directed towards delivering user content to a terminal:

" establishing a set of user content delivery preferences relating to user content, wherein the set of user content delivery preferences comprises a delivery cost constraint for delivery of the user content to a terminal;

...

wherein a plurality of networks are available for delivery of said user content, and none of the plurality of available networks would satisfy the delivery cost constraint, and

wherein at least one other network becomes available, selecting the other network for delivery of the user content based on at least a cost for delivery of the user content in view of the cost constraint." (as from claim 54, similar limitation in claim 72)

This subject matter, when considering the claim as a whole, is not found in the prior art nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
